

A diagram showing a fluid domain $\Omega_F(t)$ (light gray) and a curved boundary $\Gamma_F(t)$ (thick black line). A normal vector $\hat{n}_F(t)$ is shown pointing outwards from the boundary.

$\Omega_F(t)$

$\hat{n}_F(t)$

$\Gamma_F(t)$

A diagram showing a solid domain $\Omega_S(t)$ (dark gray) and a curved boundary $\Gamma_S(t)$ (thick black line). A normal vector $\hat{n}_S(t)$ is shown pointing outwards from the boundary.

$\Gamma_S(t)$

$\hat{n}_S(t)$

$\Omega_S(t)$
